WHO WE ARE

AN INDIAN MANUFACTURER BUILDING THE NEXT GENERATION OF ELECTRIC VEHICLES

Founded with a vision to accelerate the transition toward sustainable transportation, **MAZUJA EV MOTORS PRIVATE LIMITED**, operating under the **UPCOT Electric Vehicles** brand, is an emerging Indian electric vehicle manufacturer dedicated to designing, developing, manufacturing and exporting innovative electric mobility solutions.

Our product portfolio combines advanced engineering, robust manufacturing and intelligent technology to serve both commercial and personal mobility requirements. From cargo transportation and passenger mobility to leisure vehicles and electric family scooters, every UPCOT vehicle is developed to deliver exceptional performance, reliability and long-term value.

Built for Indian road conditions and engineered to meet global quality expectations, our vehicles reflect our commitment to innovation, safety, durability and sustainability.

As we continue to expand across domestic and international markets, our objective is to create intelligent electric mobility solutions that empower businesses, families and communities while contributing to a cleaner and greener future.

OUR PURPOSE

VISION

To become one of India's most respected global electric vehicle manufacturers by delivering innovative, sustainable and intelligent mobility solutions that improve everyday transportation.

MISSION

- Design world-class electric vehicles.
- Manufacture reliable, high-quality mobility solutions.
- Deliver exceptional customer satisfaction.
- Build a strong nationwide and international dealer network.
- Promote sustainable transportation through continuous innovation.

OUR CORE VALUES

INNOVATION
Developing advanced EV technologies for tomorrow.

QUALITY
Precision engineering and stringent quality standards.

SAFETY
Designed with safety at every stage of development.

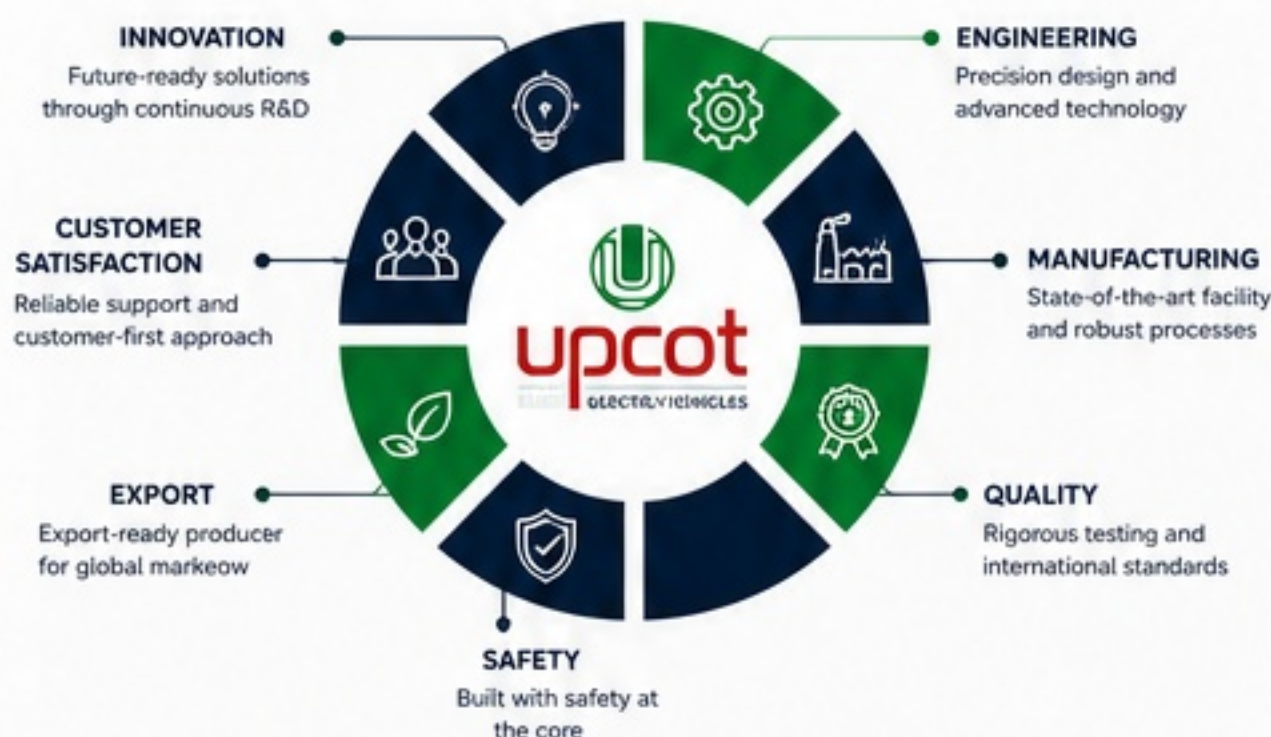

RELIABILITY
Vehicles built for long service life and dependable performance.

SUSTAINABILITY
Supporting a cleaner environment through zero-emission mobility.

DRIVING THE FUTURE OF SUSTAINABLE MOBILITY

MANUFACTURING EXCELLENCE & TECHNOLOGY

Engineering Excellence.
Manufactured for the Future.

At **MAZUJA EV MOTORS PRIVATE LIMITED**, manufacturing is more than assembly—it's a commitment to engineering excellence, quality assurance and continuous innovation.

Every **UPCOT** Electric Vehicle is developed using a structured manufacturing process that integrates modern engineering practices, precision fabrication and rigorous quality inspections.

Our manufacturing philosophy combines robust design, advanced technology and stringent quality standards to ensure every vehicle is ready for demanding commercial and personal applications.

With a focus on scalable production and export readiness, **UPCOT** continues to strengthen its manufacturing capabilities to meet the growing demand for sustainable mobility solutions across India and international markets.

MANUFACTURING PROCESS

From Concept to Customer

TECHNOLOGY HIGHLIGHTS

Advanced Electric Vehicle Technologies

SMART BATTERY MANAGEMENT SYSTEM (BMS)
Real-time monitoring and intelligent battery protection for improved safety and performance.

IP67 MOTOR TECHNOLOGY
Dustproof and water-resistant motor designed for demanding operating conditions.

IP67 LITHIUM BATTERY
Reliable energy storage with enhanced durability and long service life.

INTELLIGENT CHARGING SYSTEM
Efficient charging with integrated safety protection.

REGENERATIVE BRAKING
Optimizes energy recovery to improve driving efficiency.

HIGH-EFFICIENCY POWERTRAIN
Smooth acceleration with dependable torque and low maintenance.

QUALITY ASSURANCE

Quality at Every Stage

Every vehicle undergoes comprehensive inspections including:

- ✓ Dimensional Quality Checks
- ✓ Electrical System Testing
- ✓ Battery Performance Validation
- ✓ Motor Performance Testing
- ✓ Controller Calibration
- ✓ Brake & Suspension Inspection
- ✓ Lighting & Safety System Verification
- ✓ Final Road Performance Test

DRIVING THE FUTURE OF SUSTAINABLE MOBILITY

OUR PRODUCT PORTFOLIO

8 MODELS. ENDLESS POSSIBILITIES.

UPCOT Electric Vehicles offers a wide range of high-performance, reliable and cost-efficient electric vehicles designed for commercial, personal and leisure mobility needs.

UPCOT XL 1500

Smart Electric Loader

	Range 120 – 150 km		Payload 500 kg
--	-----------------------	---	-------------------

High performance electric loader designed for efficient cargo operations with low running cost.

UPCOT XL 1500 PLUS

Smart Electric Cargo

	Range 120 – 150 km		Payload 500 kg
---	-----------------------	---	-------------------

Enclosed cargo solution for secure deliveries in urban and semi-urban environments.

UPCOT XL 2100

Premium Family Scooter Car

	Range 180 – 200 km		Payload 500 kg
---	-----------------------	---	-------------------

India's First Electric Family Scooter Car offering comfort, style and long range performance.

UPCOT XL 2100 PLUS

Premium Family Scooter Car

	Range 180 – 200 km		Payload 550 kg
---	-----------------------	---	-------------------

World's Longest Range Electric Leisure Vehicle with premium comfort and advanced technology.

UPCOT BURAQ

Luxury Leisure Vehicle

	Range 180 – 200 km		Payload 500 kg
--	-----------------------	---	-------------------

Stylish and comfortable leisure vehicle perfect for resorts, campuses and tourist destinations.

UPCOT L5 PASSENGER

Electric Passenger Auto

	Range 120 – 150 km		Payload 500 kg
---	-----------------------	---	-------------------

Reliable and efficient passenger auto designed for daily operations in city and rural routes.

UPCOT CHOTA DOST

Compact Electric Cargo

	Range 120 – 150 km		Payload 600 kg
---	-----------------------	---	-------------------

Compact and powerful cargo vehicle ideal for last-mile delivery and small business transportation.

UPCOT 1+4 PASSENGER AUTO

Electric Passenger Auto

	Range 120 – 150 km		Seating 1+4
---	-----------------------	---	----------------

Spacious and durable passenger auto built for comfort, safety and economy.

BUILT WITH ADVANCED TECHNOLOGY
